| | | | | 9780134438986 | There is only one required textbook for this course. Ideally, this would be the 13th edition. However, it appears as if the 13th edition is out of print, and therefore may be difficult to find. |
| | | | | | That being said, the 14th edition of the textbook is also acceptable. The assignments will be on different pages, but the course material should be the same. You have the option of finding either book. |
