EDUCATION
SECONDARY EDUCATION

ASSOCIATE IN SCIENCE

The courses in this program will meet the requirements for an Associate in Science Degree in Secondary Education at LCC. Since requirements at 4-year colleges vary, students must refer to the 4-year college of their choice to determine the transferability of courses. An Associate in Science in Secondary Education will help prepare a student to transfer to a 4-year college and be successful in future endeavors.

**Concentration Requirements** 19
- **EDUC 134** Preprofessional Lab for Teachers and 1
- **EDUC 140** Intro to Teaching must be taken concurrently 3

**Concentration Electives** 15

**Recommended Course Sequence**

SEM 1: **EDUC 134, EDUC 140** (Must be taken concurrently)
SEM 2: Concentration Electives
SEM 3: Concentration Electives
SEM 4: Concentration Electives

**After Graduation**
Students will be prepared to continue their education at a 4-year college. A Bachelor's Degree is the minimum requirement to pursue a career as a secondary education teacher. A student could also utilize an Associate Degree in Secondary Education in order to obtain a Kansas Substitute-Teacher's License and begin work in the school system.
Students transferring to a 4-year college should contact the advisor at that university to ensure transferability of coursework. It is the student's responsibility to follow the transfer requirements for his/her transfer institution.

Courses designated as Physical Science, Natural Science, Humanities, Social Behavioral and General Education electives can be found on page 88.
Placement Tests or pre-requisites are required for English Composition I, and Math courses. See page 24 for complete Placement information.
Some courses are not offer each semester. Always make an appointment with your major advisor to enroll each semester.
