<input type="checkbox"/>	_____			
<input type="checkbox"/>	_____			
	General Education Electives			6
<input type="checkbox"/>	_____			
<input type="checkbox"/>	_____			

After Graduation

LCC has an articulation agreement with Kansas State University.
 According to the Bureau of Labor Statistics an Associates of Arts in Psychology provides a student the jump start they need to transfer to a four year bachelor's degree program. Once a student completes their bachelors they can move on to a Master's Degree and even a PhD but it all begins with the Associates of Arts in Psychology.
 Additionally, the Associates of Arts in Psychology could mean about \$130.00 extra a week in wages, more than a person would earn with only a high school diploma. Students who complete an Associates of Arts in Psychology may be eligible for social and human service assistance jobs. In these jobs the student might provide client services to individuals and/or families from several different fields including: psychology, rehabilitation, and social work; assisting other workers such as social workers whose clients are seeking assistance or benefits from community programs/services.

Courses designated as Physical Science, Natural Science, Humanities, Social Behavioral and General Education electives can be found on page 82.
 Placement Tests or pre-requisites are required for English Composition I, Math courses and most General Education Electives. See page 31 for complete Placement information.
 All first-time, full-time students with fewer than 15 credit hours after high school graduation are required to enroll in the College Success Skills course during their first semester.
 Some courses are not offer each semester. Always make an appointment with your major advisor to enroll each semester.
