

LCC's resident interior design expert will help you take your living space from tragic to terrific!

Interior Design Basics

This two credit hour course offered by **Labette Community College** will help you make the most of what you have, and turn the style you have into the style you want! Your instructor will show you how to create a stunning room by making the most of the furniture and accessories you already own! You'll learn how to change your own home from "blah" to "fabulous."

Learn the basics of interior design, including elements, principles, room & space planning, and drawing a basic floor plan, as well as how to use color in a space. Students can bring in examples of issues or challenges with a room or piece of furniture from their own home for class discussions, and for assistance in what to do to resolve the design dilemma.

- **Location:** Room M302, Main Building, **Labette Community College campus**
