LCC Purchases Bank Building

Parsons, KS- The Labette Community College Board of Trustees recently approved to purchase the Bank of Parsons building at 1230 Main, Parsons.

“LCC is a land-locked campus. In the past 10 years, however, our leadership and Board have actively envisioned the expansion of our physical plant and program offerings to best serve our students and community,” said LCC President, Dr. George C. Knox. “We look forward to engaging with Bank of Parsons on the purchase of their current location. This is an exciting time for the bank as they begin plans to build at a new location.”

The Bank of Parsons plans to build a new facility on 16th and Broadway. The purchase of the bank by LCC will not be complete until December 2015. This allows time for plans and building of the new bank facility to take place.

“The college truly has Main Street frontage now. The Zetmeir health science building, the Ted Hill PTA building, and now the bank building are all visible and create presence in our community. LCC looks forward to acquiring that space. We have several ideas of proposed plans for that building, but have not yet decided,” said Knox.
