

**Radiology Technologist opportunities available at Via Christi locations throughout Kansas. New Grads welcome. Apply now!**

Via Christi Health is a full service healthcare system that for more than 125 years has been serving, caring for and healing the people of Kansas and the surrounding regions. Sponsored by Ascension Health, the nation's largest Catholic and largest nonprofit healthcare system, our mission is to provide quality healthcare, with a special concern for the poor and vulnerable

### **Job Summary:**

The Radiology Technologist takes radiologic films providing quality images to physicians to aid in the diagnosis of medical problems.

### **Responsibilities:**

- Prepares and positions patients for x-rays and selects exposure factors accurately.
- Prepares and administers contrast media and/or medications within the accepted scope of practice and applicable state and federal regulations.
- Observes patient during procedure and reports abnormal activity. Monitors protocols and recommends updates or refinements as warranted.
- Follows radiation safety procedures and guidelines. Prevents patient from being exposed to unnecessary radiation.

## **Qualifications**

### **Licenses/Certifications/Registration:**

- **Required Credential(s):**
  - BLS Provider credentialed from the American Heart Association (AHA) obtained within 1.5 Months (45 days) of hire date or job transfer date.
  - Licensed Radiology Technician credentialed from the Kansas Board of Healing Arts obtained prior to hire date or job transfer date.
  - Radiologic Technologist specializing in Radiography credentialed from the American Registry of Radiologic Technologists (ARRT) obtained prior to hire date or job transfer date.

### **Education:**

- Technical School
  - Associates degree (AA) or equivalent from approved Radiological Technology program required by hire or job transfer date
