

LABETTE COMMUNITY COLLEGE BRIEF SYLLABUS

SPECIAL NOTE:

This brief syllabus is not intended to be a legal contract. A full syllabus will be distributed to students at the first class session.

TEXT AND SUPPLEMENTARY MATERIALS USED IN THE COURSE (if any):

Please check with the LCC bookstore, <http://www.labette.edu/bookstore>, for the required texts for this class.

<u>COURSE NUMBER:</u>	PTA 207
<u>COURSE TITLE:</u>	PTA Seminar
<u>SEMESTER CREDIT HOURS:</u>	2 Credit Hours
<u>DEPARTMENT:</u>	Health Science
<u>DIVISION:</u>	Career Technical Education
<u>PREREQUISITE:</u>	Admission to PTA Program
<u>REVISION DATE:</u>	11/8/2018

COURSE DESCRIPTION:

This course is designed to teach physical therapist assistant students more detail on common conditions and topics that affect patients in the clinical setting. Clinicians who work with these populations will present material to provide the student with real world experience in their roles as a PTA. These topics will build on the knowledge the students have acquired in other courses. These topics may include the following and may be subject to change: Pediatrics, Orthotics/Prosthetics, Pharmacology, Lymphedema, Wound Care, Bariatrics, Dementia, Wheel chairs and seating, Home Health, Billing and coding, Imaging, School based therapy, Swallowing, Spinal cord, head injury, Parkinson's, Multiple Sclerosis, Gastrointestinal system and cardiopulmonary.

COURSE OUTCOMES AND COMPETENCIES:

Students who successfully complete this course will be able to:

Combine didactic and clinical experience with information from experts on special topics in order to have a more comprehensive knowledge to provide treatment interventions.

1. Demonstrate a basic understanding of the role of the PTA in Cardiopulmonary rehabilitation.

- Compose an essay to communicate their understanding of cardiopulmonary rehabilitation.

- Elaborate on how the information from the speaker on cardiopulmonary rehabilitation would have affected prior treatments.
- Predict how information from the speaker will impact how you will provide future therapy interventions on cardiopulmonary rehabilitation.
- Determine if your prior interventions in this area were appropriate as compared to information presented by the speaker on cardiopulmonary rehabilitation.
- Evaluate your preparedness to provide contemporary interventions based on information presented on cardiopulmonary rehabilitation.

2. Demonstrate a basic understanding of the role of the PTA in providing treatment to a patient with Dementia.

- Compose an essay to communicate their understanding of Dementia
- Elaborate on how the information from the speaker on dementia rehabilitation would have affected prior treatments.
- Predict how information from the speaker will impact how you will provide future therapy interventions for a patient with dementia.
- Determine if your prior interventions in this area were appropriate as compared to information presented by the speaker on dementia.
- Evaluate your preparedness to provide contemporary interventions based on information presented on dementia.

3. Demonstrate a basic understanding of the role of the PTA in providing treatment to a patient with an orthosis or prosthesis (O&P).

- Compose an essay to communicate their understanding of orthotics and prosthetics.
- Elaborate on how the information from the speaker on orthotics and prosthetics in rehabilitation would have affected prior treatments.
- Predict how information from the speaker will impact how you will provide future therapy interventions for a patient with O&P.
- Determine if your prior interventions in this area were appropriate as compared to information presented by the speaker on O & P.
- Evaluate your preparedness to provide contemporary interventions based on information presented on O & P.

4. Demonstrate a basic understanding of the role of the PTA in providing wound care treatment to a patient.

- Compose an essay to communicate their understanding of the general principles of wound care.
- Elaborate on how the information from the speaker on wound care would have affected prior treatments.
- Predict how information from the speaker will impact how you will provide future therapy interventions for wound care.
- Determine if your prior interventions in this area were appropriate as compared to information presented by the speaker on wound care.
- Evaluate your preparedness to provide contemporary interventions based on information presented on wound care.

5. Demonstrate a basic understanding of the role of the PTA in providing treatment for a bariatric patient.

- Compose an essay to communicate their understanding of bariatric therapy.
- Elaborate on how the information from the speaker on bariatrics in rehabilitation would have affected prior treatments.
- Predict how information from the speaker will impact how you will provide future therapy interventions for a bariatric patient.
- Determine if your prior interventions in this area were appropriate as compared to information presented by the speaker on bariatrics.
- Evaluate your preparedness to provide contemporary interventions based on information presented on bariatrics.

6. Demonstrate a basic understanding of the role of the PTA in providing treatment for a bariatric patient.

- Compose an essay to communicate their understanding of bariatric therapy.
- Elaborate on how the information from the speaker on bariatrics in rehabilitation would have affected prior treatments.
- Predict how information from the speaker will impact how you will provide future therapy interventions for a bariatric patient.
- Determine if your prior interventions in this area were appropriate as compared to information presented by the speaker on bariatrics.
- Evaluate your preparedness to provide contemporary interventions based on information presented on bariatrics.
