

Labette Community College Notifies of Data Security Incident

Parsons, Kansas – March 8, 2023 – Labette Community College (“Labette”) is writing to inform you of a recent data security incident that may have resulted in an unauthorized access of your sensitive personal information. While we are unaware of any fraudulent misuse of your personal information at this time, we are providing you with details about the incident, steps we are taking in response, and resources available to help you protect against the potential misuse of your information.

What Happened? On August 14, 2022, Labette detected unusual activity on our network. Upon discovery of this incident, Labette immediately disconnected all access to the network and promptly engaged a specialized third-party cybersecurity firm to assist with securing the environment, as well as, to conduct a comprehensive forensic investigation to determine the nature and scope of the incident. After a thorough investigation, the forensic investigation reported to Labette on October 18, 2022 that they found evidence that some Labette files were accessed by an unauthorized actor. Labette proceeded with data mining to determine the notice population. Labette completed the data mining process on January 11, 2023.

Based on the data mining findings, Labette proceeded to determine the contact details for those individuals whose information was potentially accessed. On February 6, 2023, Labette finalized the list of individuals to notify.

What Information Was Involved? Since August 14, 2022 to the present, LCC has not received any reports of identity theft as a result of this incident. Based on LCC’s investigation, it is possible that individuals’ full name, address, and/or Social Security number, may have been exposed as a result of this unauthorized activity.

What We Are Doing LCC is committed to ensuring the security and privacy of all personal information in its control, and is taking steps to prevent a similar incident from occurring in the future. Upon discovery of the Incident, LCC moved quickly to investigate and respond to the Incident, assessed the security of its systems, and notified the potentially affected individuals. Specifically, LCC engaged a specialized cybersecurity firm to conduct a forensic investigation to determine the nature and scope of the Incident. Additionally, LCC disconnected all access to our network, changed administrative credentials, restored operations in a safe and secure mode, enhanced the security measures, and took steps and will continue to take steps to mitigate the risk of future harm.

Steps You Can Take to Help Protect Your Information

Credit Reports: You may obtain a copy of your credit report, free of charge, whether or not you suspect any unauthorized activity on your account. You may obtain a free copy of your credit report from each of the three nationwide credit reporting agencies. To order your free credit report, please visit www.annualcreditreport.com, or call toll-free at 1-877-322-8228. You can also order your annual free credit report by mailing a completed Annual Credit Report Request Form (available at <https://www.consumer.ftc.gov/articles/0155-free-credit-reports>) to: Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA, 30348-5281.

Fraud Alerts: You can place fraud alerts with the three credit bureaus by phone or online. A fraud alert tells creditors to follow certain procedures, including contacting you, before they open any new accounts or change your existing accounts. For that reason, placing a fraud alert can protect you, but also may delay you when you seek to obtain credit. As of September 21, 2018, initial fraud alerts last for one year. Victims of identity theft can also get an extended fraud alert for seven years.

Monitoring: You should always remain vigilant for incidents of fraud and identity theft by reviewing credit card account statements and by monitoring your credit report for suspicious or unusual activity.

Security Freeze: You have the right to place a security freeze on your credit report. A security freeze is intended to prevent credit, loans, and services from being approved in your name without your consent. To place a security freeze on your credit report, you need to make a request to each consumer reporting agency. You may make that request by certified mail, overnight mail, regular stamped mail, or by following the instructions found at the websites listed below. The following information must be included when requesting a security freeze (note that if you are requesting a credit report for your spouse or a minor under the age of 16, this information must be provided for him/her as well): (1) full name, with middle initial and any suffixes; (2) Social Security number; (3) date of birth; (4) current address and any previous addresses for the past five years; and (5) any applicable incident report or complaint with a law enforcement agency or the Registry of Motor Vehicles. The request must also include a copy of a government-issued identification card and a copy of a recent utility bill or bank or insurance statement. It is essential that each copy be legible, display your name and current mailing address, and the date of issue. As of September 21, 2018, it is free to place, lift, or remove a security freeze. You may also place a security freeze for children under the age of 16. You may obtain a free security freeze by contacting any one or more of the following national consumer reporting agencies:
