### **BUBBLE RUN TO BEAT EPILEPSY**

*Benefit for Parsons toddler NaRayah Buck*

Parsons, KS- The Labette Community College Public Relations class is hosting a 5K epilepsy awareness run Saturday, April 19 at Forest Park in Parsons, KS for local toddler, NaRayah Buck. "Bubble Run to Beat Epilepsy" is designed to help offset medical expenses for the Buck family as well as increase epilepsy awareness.

Registration is underway now through April 3. For a \$20 entry fee participants receive a "Keep Calm and Run On" t-shirt, a healthy lunch following the run, and medals for the top runners by age group. Remaining funds will benefit the Buck family. Late registrations are allowed through the start of the event, but do not include a t-shirt and lunch.

On the morning of the event, participants should check-in between 9 a.m. and 10 a.m. at the stage in Forest Park. LCC Public Relations students will briefly present information provided by the National Epilepsy Foundation at 10 a.m. and demonstrate how to assist a person having a seizure. Immediately following the presentation, participants will get set for the 5K to begin and complete the run around the perimeter of the park. Following the run, participants will enjoy lunch, music, and the presentation of medals to the top runners.
