

Nursing

1. Integrate caring behaviors in practicing the art and science of nursing within a diverse population.
2. Implement professional standards and scope of practice within legal, ethical, and regulatory frameworks.
3. Collaborate with clients and members of the interdisciplinary health care team to optimize client outcomes.
4. Formulate safe and effective clinical judgments guided by the nursing process, clinical reasoning, and evidence-based practice.
5. Manage care and provide leadership to meet client needs using available resources and current technology.
6. Generate teaching and learning processes to promote and maintain health and to reduce risks for a variety of clients.
7. Demonstrate effective communication methods to manage client needs and to interact with other health care team members.
